Contents of Volume 54

Number 1 (Part I), January 1996

Biological Chemistry of Thiols in the Vasculature and in Vascular-related Disease, by Jonathan S. Stamler and Adam Slivka 1
Nutrition in the Management of Cystic Fibrosis, by Julie Dowsett 31
High-Fat, High-Cholesterol Diet Raises Plasma HDL Cholesterol: Studies on the Mechanism of This Effect, by George Wolf 34
Rice Inhibits Intestinal Secretions, by Eric D. Goldberg and John R. Saltzman 36
Announcements 38
Calendar 40

Number 1 (Part II), January 1996

US Administration on Aging Symposium Nutrition Research and the Elderly II: The Role of Nutrition in Long-Term Care

Foreword, by Elaine R. Wedral S1
Introductory Remarks and Policy Recommendations, by Connie Benton Wolfe S3
Nutrition Research: An Investment in the Nation's Health, by Irwin H. Rosenberg S5
Malnutrition and Hunger in the Elderly, by Fernando M. Torres-Gil S7
Compression of Disability: Evidence from the National Long-Term Care Survey, by Larry S. Corder S9
The Rural Elderly: Living the Good Life?, by Gordon L. Jensen S17
Nutrition Problems among Home-Living Elderly People May Lead to Disease and Hospitalization, by Morten Mowe and Thomas Bohmer S22
The Dwindles: Failure to Thrive in Older Patients, by Anne M. Egbert S25
Remarks from the Honorable Russell D. Feingold, Wisconsin, The United States Senate, Washington, DC, by Russell D. Feingold S31
Effects of Aging and Exercise on Nutrition Needs of the Elderly, by William J. Evans S35
Nutrition Assessment in Long-Term Care Facilities, by Ronenn Roubenoff, Judy Giacoppe, Sherri Richardson, and Peter J. Hoffman S40
Policy: Nutrition Standards for Treatment of Pressure Ulcers, by Ronni Chernoff S43
Nevada's Elderly: Nutrition Screening, Risk, and Interventions, by David Wilson and Jamie Benedict S45
Oregon's Long-Term Care System—From Nursing Facility Care to Community-Based Care: An Evolution, by Susan L. Dietsche S48
Enhancing Taste, Texture, Appearance, and Presentation of Pureed Food Improved Resident Quality of Life and Weight Status, by Digna Cassens, Elenore Johnson, and Stephanie Keelan S51
Remarks from the Honorable William Goodling, Pennsylvania 19th district, The United States House of Representatives, Washington, DC, by William Goodling S55
Remarks from the Honorable Joseph P. Kennedy II, Massachusetts 8th district, The United States House of Representatives, Washington DC, by Joseph P. Kennedy II S57
Assessing the Nutritional Status of the Elderly: The Mini Nutritional Assessment as Part of the Geriatric Evaluation, by Yves Guigoz, Bruno Vellas, and Philip J. Garry S59

Number 2 (Part I), February 1996

The New Obesity Genes, by Susan B. Roberts and Andrew S. Greenberg 41
Dietary Guidelines for Infants: A Timely Reminder, by Walter H. Glinsmann, Sandra J. Bartholmey, and Frances Coletta 50
Low-Protein Intakes and Protein Turnover in Elderly Women 58
Retinoic Acid Response Elements as Positive and Negative Regulators of the Homeobox b-1 Gene 61
The Effects of Dairy Products on Body Composition, Bone Mineralization, and Weight in Adolescent Girls 64
Letters to the Editor 66
Research News 68
Announcements 70
Calendar 72

Number 2 (Part II), February 1996

Sixteenth Marabou Symposium
Early Nutrition and Lifelong Health

Growth in Utero and Coronary Heart Disease, by D. J. P. Barker S1
Long-Term Programming of Body Size, by Claude Bouchard S8
Nutritional Determinants of Puberty, by Judy L. Cameron S17
Early Dietary Influence on Later Immunocompetence, by Lars Å Hanson, Mirjana Hahn-Zoric, Ursula Wiedermann, Samuel Lundin, Anna Dahlman-Höglund, Robert Saalman, Valdemar Erling, Ulf Dahlgren, and Esbjörn Telemo S23
Early Determinants of Adult Metabolic Regulation: Effects of Infant Nutrition on Adult Lipid and Lipoprotein Metabolism, by Henry C. McGill, Jr., Glen E. Mott, Douglas S. Lewis, C. Alex McMahan, and Evelyn M. Jackson S31
Early Nutrition and Later Physical Work Capacity, by Jere D. Haas, Scott Murdoch, Juan Rivera, and Reynaldo Martorell S41
Timing and Vulnerability in Research on Malnutrition and Cognition, by Ernesto Pollitt S49
Discussion, by Philip James, Moderator S56
Meeting Summary, by Philip James, Cutberto Garza, and Lars Å. Hanson S74
Participants S77
Marabou Symposia S80

Number 3, March 1996

Iron and Heart Disease: The Epidemiologic Data, by Christopher T. Sempos, Anne C. Looker, and Richard F. Gillum 73
Effects of Positive Iron Status at a Cellular Level, by Joe M. McCord 85
Plant Sources of Vitamin A and Human Nutrition: Renewed Strategies 89
Leptin: The Weight-reducing Plasma Protein Encoded by the *Obese* Gene 91
Folic Acid Fortification 94
Food and Nutrition Information Center 96
Announcements 97
Calendar 99

Number 4 (Part I), April 1996

Biochemical Features of Grain Legume Allergens in Humans and Animals, by J. P. Lallès and G. Peltre 101
The Role of Stereospecific Saturated Fatty Acid Positions on Lipid Nutrition, by Eric Decker 108
Cost Containment Through Nutrition Intervention, by Hugh N. Tucker and Stanley G. Miguel 111
Nutritional and Hormonal Regulation of Fatty Acid Synthase 122
Anticholesterol Antibodies and Plaque Formation 124
Announcements 128
Calendar 130

Number 4 (Part II), April 1996

Conference on Nutrition and Physical Activity to Optimize Performance and Well-being

Foreword, by Alex Malaspina S1
Bone Mass, Nutrition, and Other Lifestyle Factors, by Robert P. Heaney S3
Peak Bone Mass and Physical Activity: A Short Review, by Ilkka Vuori S11
Reproductive Performance and Nutrition During Childhood, by Reynaldo Martorell et al. S15
School Breakfast and Cognition Among Nutritionally At-risk Children in the Peruvian Andes, by Ernesto Pollitt et al. S22
Physical Activity and Performance in Children, by Terence Dwyer et al. S27
Habitual Physical Activity and Academic Performance, by Roy J. Shephard S32
Exercise, Physical Activity, Nutrition, and the Brain, by Wildor Hollmann and H. K. Strüder S37
Habitual Physical Activity, Psychomotor Performance, and Older Workers, by Juhani Ilmarinen et al. S44
Physical Activity and Psychological Well-being: Knowledge Base, Current Issues, and Caveats, by Lisa Gauvin and John C. Spence S53
The Role of Nutrition in Economic Development, by Reynaldo Martorell S66
The Benefits of Adequate Iodine Intake, by Nico Bleichrodt et al. S72

Measuring Nutrition Status, Physical Activity, and Fitness, with Special Emphasis on Populations at Nutritional Risk, by Victor Keihan Rodrigues Matsudo S79
Trends in Body Weight and Overweight in the U.S. Population, by Katherine M. Flegal S97
Dietary Intake and Physical Activity as "Predictors" of Weight Gain in Observational, Prospective Studies of Adults, by David F. Williamson S101
Physical Inactivity and Metabolic Factors as Predictors of Weight Gain, by Wim H. M. Saris S110
Is Weight Loss Hazardous?, by I-Min Lee and Ralph S. Paffenbarger, Jr. S116
Can Obesity Be Prevented?, by Claude Bouchard S125
Clinical Applications of Diet and Physical Activity in Weight Loss, by Peter D. Wood S131
Carbohydrates and Exercise Performance, by Mark Hargreaves S136
Effects of Exercise on Daily Energy Expenditure, by Michael J. Toth and Eric T. Poehlman S140
Vitamin and Mineral Supplements as Nutritional Aids to Exercise Performance and Health, by Lawrence E. Armstrong and Carl M. Maresh S149
Fluid Balance for Optimal Performance, by Carl V. Gisolfi S159
Is Increased Dietary Protein Necessary or Beneficial for Individuals with a Physically Active Lifestyle?, by Peter W. R. Lemon S169
An Eastern Perspective on Nutrition and Performance, by Ji Di Chen S176
Contributors S183

Number 5, May 1996

Enrichment of Food Staples Through Plant Breeding: A New Strategy for Fighting Micronutrient Malnutrition, by Howarth Bouis 131
Trans Fatty Acids and Cancer, by Clement Ip and James R. Marshall 138
Maternal Obesity Increases Congenital Malformations 146
The Mechanism of Uptake of Ascorbic Acid into Osteoblasts and Leukocytes 150
Communicating Emerging Scientific Information 153
Institute of Food Science and Technology 158
Research News 159
Calendar 161

Number 6, June 1996

Intrauterine Programming of Hypertension: Nutrient–Hormone Interactions, by Simon Langley-Evans and Alan Jackson 163
Physical Activity Levels from a Meta-analysis of Doubly Labeled Water Studies for Validating Energy Intake as Measured by Dietary Assessment, by Alison E. Black 170
Antioxidants in Cardiovascular Disease: Randomized Trials 175
Beta-Carotene Increases Lung Cancer Incidence in Cigarette Smokers 178
Bone Lead as a Risk Factor for Hypertension in Men 180
The Regulation of Retinoic Acid Formation 182
Beta-Carotene and the Carotenoids: Beyond the Intervention Trials 185
Announcements 189
Calendar 191

Number 7, July 1996

Does Diabetes Mellitus Increase the Requirement for Vitamin C?, by Julie C. Will and Tim Byers 193
The Effect of Caffeine on Pregnancy Outcome Variables, by Tanya S. Hinds, William L. West, Enid Knight, and Barbara Harland 203
Bovine Spongiform Encephalopathy "Mad Cow Disease" 208
Survival Beyond Age 70 in Relation to Diet 211
Will an Increased Dietary Folate Intake Reduce the Incidence of Cardiovascular Disease? 213
Nutrition Status Predicts Survival in Cirrhosis 217
Announcements 220
Calendar 223

Number 8, August 1996

Health Effects of Salicylates in Foods and Drugs, by Christine A. Perry, Johanna Dwyer, Jeffrey A. Gelfand, R. Rebecca Couris, and William W. McCloskey 225
The Traditional and Emerging Role of Nuts in Healthful Diets, by Mark L. Dreher and Cecelia V. Maher in association with Patricia Kearney 241

Revisiting Dietary Allowances and Requirements 246
Can Fish Oil Maintain Crohn's Disease in Remission? 248
Forever Fiber 253
Fruits and Vegetables: Protective or Just Fellow Travelers? 255
Announcement 258

Number 9, September 1996

Nutrition Chemoprevention of Gastrointestinal Cancers: A Critical Review, by Young-In Kim and Joel B. Mason 259
Summary of the Surgeon General's Report Addressing Physical Activity and Health 280
Discovery of the Hemochromatosis Gene Will Require Rethinking the Regulation of Iron Metabolism 285
Differential Display PCR: A New Age in Nutrition Investigation 287
Adipocyte Differentiation Is Regulated by a Prostaglandin Liganded to the Nuclear Peroxisome Proliferator-activated Receptor 290
Publication Announcement 293

Number 10, October 1996

Iron Metabolism: A Comprehensive Review, by John L. Beard, Harry Dawson, and Domingo J. Piñero 295
Daily Versus Weekly: How Many Iron Pills Do Pregnant Women Need?, by Rae Galloway and Judith McGuire 318
Enteral Feeding Associated Gastroesophageal Reflux and Aspiration Pneumonia: A Review, by Nadeem Kazi and Sohrab Mobarhan 324
Insulin-Stimulated Glucose Disposal: Does Adipose Play a Role? 329
Function of the Bone Protein Osteocalcin: Definitive Evidence 332
Calendar 334

Number 11 (Part I), November 1996

Proteinuria and Albumin Homeostasis in the Nephrotic Syndrome: Effect of Dietary Protein Intake, by Ramon Rodrigo, Ines Bravo, and Mauricio Pino 337
Strategies for the Prevention of Iron Deficiency: Iron in Infant Formulas and Baby Foods, by Ekhard E. Ziegler and Samuel J. Fomon 348
A New Metabolite of Retinol: All-*trans*-4-oxo-retinol As a Receptor Activator and Differentiation Agent 355
Salicylates in Foods 357
Announcements 360
Calendar 363

Number 11 (Part II), November 1996

First International Conference on East-West Perspectives on Functional Foods

Foreword, by Alex Malaspina S1
Preface, by Fergus M. Clydesdale and Chan Soh Ha S2
Opening Address, by Goh Chee Wee S3
Functional Foods: Overview and Introduction, by Alex Malaspina S4
Functional Foods: The Western Perspective, by Clare M. Hasler S6
The Eastern Perspective on Functional Foods Based on Traditional Chinese Medicine, by Weijian Weng and Junshi Chen S11
Functional Foods: Approaches to Definition and Substantiation, by Richard J. Head, Ian R. Record, and Roger A. King S17
Functional Food in China, by Yin Dai and Xueyun Luo S21
An Approach to Functional Food: Cancer Preventive Potential of Vegetables and Fruits and Their Active Constituents, by Hajime Ohigashi, Akira Murakami, and Koichi Koshimizu S24
Functional Foods in the European Union, by Gérard Pascal S29
Functional Foods in North America, by Walter H. Glinsmann S33
Functional Effects of Food Components and the Gastrointestinal System: Chicory Fructooligosaccharides, by Marcel B. Roberfroid S38
Diet, Age, and the Immune System, by John Bradley and Xiaoning Xu S43
Bioactive Ingredients: Antioxidants and Polyphenols in Tea, by Ivor E. Dreosti S51
Oligosaccharides with Beneficial Health Effects: A Japanese Perspective, by Tsuneyuki Oku S59

Japanese Green Tea as a Cancer Preventive in Humans, by Hirota Fujiki, Masami Suganuma, Sachiko Okabe, Atsumasa Komori, Eisaburo Sueoka, Naoko Sueoka, Tomoko Kozu, and Yuzo Sakai S67
Experimental and Epidemiological Evidence of the Cancer-Preventive Effects of *Panax ginseng* C. A. Meyer, by Taik-Koo Yun S71
Garlic: Its Anticarcinogenic and Antitumorigenic Properties, by John A. Milner S82
Cranberry Juice and Urinary Tract Infections: Is There a Beneficial Relationahip?, by L. N. Kuzminski S87
Functional Properties of Edible Mushrooms, by Raymond Chang S91
Beneficial Effects of Tempeh in Disease Prevention and Treatment, by Darwin Karyadi and Widjaja Lukito S94
Functional Dairy Foods with *Lactobacillus* Strain GG, by Seppo Salminen S99
Marine Oils: The Health Benefits of *n*-3 Fatty Acids, by Ricardo Uauy-Dagach and Alfonso Valenzuela S102
Beta-Carotene, Vitamin C, and Vitamin E: The Protective Micronutrients, by Jean-Luc Charleux S109
Complex Carbohydrates and Resistant Starch, by Ian Brown S115
Minor Constituents of Rice Bran Oil as Functional Foods, by E. A. M. de Deckere and O. Korver S120
Indian Functional Foods: Role in Prevention of Cancer, by Kamala Krishnaswamy S127
The Safety Assurance of Functional Foods, by Anthony C. Huggett and Paulus M. Verschuren S132
Health Benefits and Risk Analysis with Reference to Cancer Studies, by H. P. Lee S141
Research Needs for Establishing the Safety of Functional Foods, by A. C. Huggett and B. Schilter S143
Codex Alimentarius, by Pakdee Pothisiri and Hataya Hongchuntuk S149
Regulatory and Legal Aspects of Functional Foods: An International Perspective, by Alan Randell and John Race S152
Regulatory and Legal Aspects of Functional Foods: The Australian Perspective, by Christopher Preston and Mark Lawrence S156
Legal Aspects of Functional Foods: The Situation in China, by Xuegui Kan S162
Regulatory Aspects of Functional Foods in Nigeria, by G. E. Osuide S167
Regulatory Status of Functional Foods in Singapore, by Chia Hong Kuan S168
Research and Development on Functional Foods in Malaysia, by Md. Sharif Ahmad S169
The Prospect for Functional Foods in Thailand, by Pakdee Pothisiri and Hataya Kongchuntuk S172
Functional Foods—Shades of Gray: An Industry Perspective, by David P. Richardson S174
The Eastern Consumer Viewpoint: The Experience in Japan, by Kohei Kojima S186
Functional Foods: The Western Consumer Viewpoint, by Moira Hilliam S189
What Scientific Data Are Necessary?, by Fergus M. Clydesdale S195
Functional Foods—The Future: How to Regulate These Foods, by Gérard Pascal S199
Panel Discussion Summary S202

Number 12, December 1996

Evidence for the Relationship of Calcium to Blood Pressure, by Carl G. Osborne, Rosanne B. McTyre, Janet Dudek, Kerry E. Roche, Robert Scheuplein, Beth Silverstein, Myron S. Weinberg, and Allison A. Salkeld ... 365
Folate, Vitamin B_{12}, and Neuropsychiatric Disorders, by Teodoro Bottiglieri 382
Calendar 391
Subject Index to Volume 54 392
Author Index to Volume 54 402
